

COMPLETE HYDRAULIC SYSTEM SENSOR SUITE

For more than 60 years, **AMETEK Sensors and Fluid Management Systems (SFMS)** has delivered the most accurate, rugged and reliable sensors to aircraft OEMs around the world. AMETEK SFMS offers a robust line of products to cover the sensing demands of the entire hydraulic system. Our complete line of fluid level probes, high/low level switches, pressure sensors, and RTD hydraulic fluid temperature sensors gives our customers a single source for hydraulic system sensing and measurement.

APPLICATIONS

- 328JET
- 747
- 777
- 787
- A330
- A340
- A350
- A380
- A400M
- AW609
- Gulfstream IV
- G500/G600
- G650
- H135
- TAI T625
