Authorization of FAA-certificated Repair Station located outside the United States

Dear Mr. Torralva,

This letter authorizes AMETEK Reynosa Service Center, Certification No. 24AY707Y to perform maintenance and modifications on aeronautical products, **excluding aircraft**, under TCCA regulatory control pursuant to Section B, paragraph 4.0, of the FAA/TCCA Maintenance Implementation Procedures (MIP).

The work performed must be within the ratings and limitations contained in your 14 CFR Part 145 certificate, operations specifications and current capability list version 44 dated 02-May, 2024. Any changes applied to your certificate, operations specifications, or capability list will invalidate this authorization and a new authorization request will be required by TCCA.

This TCCA authorization shall remain in effect until your FAA Repair Station Certificate expires 2028-06-30, or if the certificate has been surrendered, suspended or revoked. To renew this authorization, TCCA requires AMETEK Reynosa Service Center to provide their renewed certificate, and demonstrate compliance with the MIP, Section B, paragraph 4.1 as part of their new authorization request.

Best regards,

TCR-805
