Authorization of FAA Certificated Repair Station located outside the United States

Dear Mr. Valenzuela,

This letter authorizes AMETEK Reynosa Service Center, Certification No. 24AY707Y to perform maintenance and modifications on aeronautical products, excluding aircraft, under TCCA regulatory control pursuant to Section B, Paragraph 4.0, of the FAA/TCCA Maintenance Implementation Procedures (MIP).

This authorization is a limited rating for accessories manufactured by AMETEK Reynosa Service Center. The work performed must be within the ratings and limitations contained in your 14 CFR Part 145 certificate, operations specifications, and current capability list revision 41 dated 2022-07-01. Any changes applied to your certificate, operations specifications, or capability list will invalidate this authorization and a new authorization request will be required by TCCA.

This TCCA authorization shall remain in effect until the company's FAA Repair Station Certificate expires **2023-09-30** or until the certificate has been surrendered, suspended or revoked. In order to renew this authorization, TCCA requires AMETEK Reynosa Service Center to provide their renewed certificate and demonstrate compliance with the MIP Section B, Paragraph 4.1, as part of their new authorization request.

Best Regards,

 

Dean Barrett
